SILVER SERIES QUAD NET PRO REBOUNDER

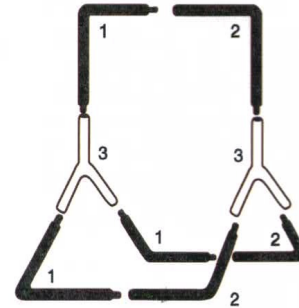

Model Number: SLVPROB

Thank you for purchasing a Louisville Slugger product. Our silver series offers high quality sports training equipment. Please visit our website at www.slugger.com or call 1-800-282-2287 with questions or to purchase accessories.

Parts List - No Tools Nee

- 6 - "L" Shaped Tubes(#1,2)
- 2 - "Y" Shaped Tubes(#3)
- 1 - Four section Net
- 40 - Bungee Fasteners

Please wear task-oriented gloves when assembling this frame. Assemble outdoors/garage

1. Connect the Frame together as shown in Fig.1
2. Connect the net to the frame using bungee fasteners by lacing the bungee through the outer row of netting, around the frame, then lock the bungee by inserting the ball through the loop. You may adjust the net tightness by lacing the bungee through the netting more times before locking. Connect the 6 corners first. Then work your way around the unit alternating to each section. Make sure the 4th section(Bonus Section) is between the two bottom sections. You may attach the bonus section to either "inside" of the unit.
3. The unit is now ready to use from either side.

May we suggest...

- When using this unit on any hard surface, place padding around the bottom tubing to protect the fasteners and frame.
- When moving the unit, do not drag or scrape across the ground, street or driveway.
- When Not in use, place the BPPRC Rebounder Cover (sold separately) onto the unit.

Always use Caution when using this product
